

To: Residents and businesses

Subject: Resident letter No. 12
The Hague, 13 March 2019

Dear Ms, Mr,

In this letter we inform you about the work that will be carried out on Friday 15 March on the busplatform The Hague Central.

In recent weeks we have taken additional safety measures locally on the underside of the busplatform. As a result, the milling work on the concrete foundation ultimately took longer than planned.

What is going to happen?

- On Friday 15 March, the part where the buildings used to be will be paved. We perform this work in one day.

Starting Monday, March 18, a start will be made on the bus platform with:

- Removing the first part of the existing roof;
- We start on the side of the Prins Bernhardviaduct;
- If the work is proceeding as expected, this part will be completely removed and disposed of on Wednesday 3 April;
- We will then continue to remove the middle part of the roof, on Thursday 4 April;
- During this period we will change a few locations of the boarding stations;
- The roof is expected to be completely removed on Thursday 9 May;
- After that, the construction of the new roof and boarding platforms on the side of the stationhall will start;
- Working hours are from Monday to Friday from 7 a.m. - 7 p.m.

**What does this mean to you?**

We strive to minimize inconvenience. Unfortunately, it is not possible to perform the work without sound. The entry stops for city and regional transport change from the time that the middle part of the roof is removed. Bus work and travelers are not affected by this work.

In unexpected situations, we may deviate from the aforementioned dates and times.

If you have any further questions regarding this letter, please contact me on telephone number 06 1100 8057 or send an email to mdjong@avecodebondt.nl.

Sincerely,

Mark de Jong
omgevingsmanager
